

MAG-TESTER 3000SH & SL

MAG-TESTER 3000SH
TESTS MAGSTRIPECARDS AND TICKETS:
UNENCODED: HICO
ENCODED: HICO AND LOCO

MAG-TESTER 3000SL
TESTS MAGSTRIPE CARDS AND TICKETS:
UNENCODED: LOCO
ENCODED: HICO AND LOCO

Designed for Production QC testing and laboratory analysis where it is not necessary to test both HiCo and LoCo **Unencoded** cards. Importantly, however, both HiCo and LoCo **Encoded** cards can be tested. Based on a single transport version of the **MAG-TESTER 3000**, with the same world class easy to use facilities, measurement accuracy, robust build quality and powerful Mag-Tester 3000 Version 3 Windows software with easy USB PC/Laptop connectivity.

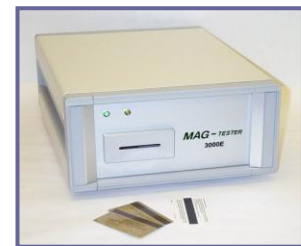

Two new **MAG-TESTER 3000** series analysers:

MAG-TESTER 3000SL

LoCo Unencoded plus Hico & LoCo Encoded card/ticket tests

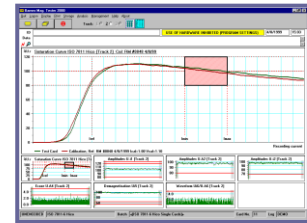

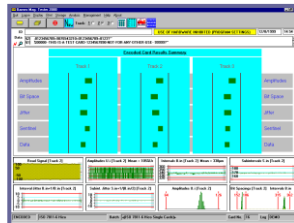

MAG-TESTER 3000SH

Hico Unencoded plus Hico & LoCo Encoded card/ticket tests

MAG-TESTER 3000SH/L displays

easy and intuitive
full Windows® based operation
(Windows 2000, XP, Vista, Windows 7)

- Unencoded analysis to ISO/IEC 7811-2 (SL) or 7811-6 (SH) + encoded to 7811-8 (SL & SH).
- Easy to use by production/QC personnel - as well by experts.
- Hardware and software as the **MAG-TESTER 3000**.
- Powerful 32 bit Windows software with USB PC interface for PC and Laptop connection.
- Measurement parameters and performance as the **MAG-TESTER 3000**.
- Full batch test and analysis facilities included.
- All tests are automatically stored to hard disc. – and are fully exportable for further analysis etc.
- **NEW Export facility** to a .CSV file importable into Excel/ Access - for Gage R&R and Six Sigma Analysis.
- Automatic tests on all three Tracks.
- Automatic calibration.

Compatible with Microsoft Windows® 2000, XP, Vista and Windows 7.
